Street Art & Urban Creativity - SAUC

In the 2017 conference and third edition of the Journal, in a global context of "post-truth" two specific sub topics are proposed: Intangible heritage and knowledge transfer. It is expected that from these sub topics we can clarify the relations of the research with practice, specifically regarding the big challenges generated to the intangible conservation, curatorial practices and knowledge transfer for the support of the best administrative policies.

Parallel activities

for the first time it will be developed parallel activities to the conference, that include initiatives that will take place from the auditorium foyer to the metropolitan area of Lisbon.

Support

Partnership
